CARE INSTRUCTIONS
FOR OUR MERCHANDISE

MUGS

Clean in dishwasher or wash by hand with warm water and dish soap. Color-changing mugs should be hand washed only. Microwave safe.

We strongly recommend hand washing mugs to maximize the life of the printed design!

TOTES

Do not iron directly over the printed area, as the print may stick to the iron. Spot clean, do not bleach. Line dry.

MOUSEPADS AND LAPTOP SLEEVES

Use warm water and dish soap and clean spots. It's not necessary to soak the entire product. For hard to clean spots, use a soft bristled brush.

These care instructions will help you keep your purchase looking its best for as long as possible!
